Skills

C++ | C | Java | PHP | html5 | css3 | JavaScript | NodeJS | MySQL | Git

Training And Internship

- ✓ **Backend Developer Intern | ICLINIQ BIOTECH PVT LTD (Start Up), Kolkata** (Jul '23-Sept '23)
As a Backend Developer Intern at Peers Symantech, a Kolkata-based startup, I contributed to the development of backend systems and services. ([LINK](#))
- ✓ **Web development training | NITI AAYOG Govt. of India, Kolkata** (Jul '23-Aug '23)
I gained web development training experience with NITI AAYOG, a government organization in Kolkata, India. ([LINK](#))

Education

- ✓ **Swami Vivekananda Institute of Science and Technology (SVIST) Kolkata, WB, India**
Computer Science And Technology CGPA: 9.04 (Jul '18 - Jun '21)
- ✓ **RCC Institute of Information Technology (RCCIT) Kolkata, WB, India**
Bachelor in Technology (Computer Science and Engineering); CGPA: 8.95 (Jul '21 - Jun '24)

Projects

- ✓ **Online Doctor Appointment System**
 - ✓ Created a robust backend system to facilitate efficient data processing and user interactions while maintaining a MySQL database for user data and appointment records.
 - ✓ Implemented user registration and login for patients, streamlined appointment booking, provided secure login for doctors with scheduling capabilities, and designed a comprehensive admin panel with additional privileges for administrators.
 - ✓ Utilized PHP and MySQL as the chosen tech stack for effective backend development and database management.
- ✓ **Sentiment Detection from Product Review(2023 – Present)**
 - ✓ Acquired proficiency in Python syntax, applied artificial intelligence, and machine learning algorithms.
 - ✓ Specialized in Python 3.0 natural language processing frameworks and trained models using extensive datasets for enhanced accuracy.

Honors / Awards / Achievements

- ✓ **Participation in National Level Students' Conference on Technology, Science, and Management 20th January 2023**
My team and I have submitted a research paper on a project called 'Sentiment Detection From Product Reviews'. ([LINK](#))
- ✓ **Winner of the GFG challenge**
It was a college competition. We had to complete some coding questions on some particular topics within a particular time. ([LINK](#))
- ✓ **4-star coder in Hackerrank**
HackerRank's programming challenges can be solved in a variety of programming languages (including Java, C++, PHP, Python, SQL, and JavaScript) and span multiple computer science domains. ([LINK](#))
- ✓ **Solved 200+ coding questions on online platforms like geeks for geeks, CodeChef, leetcode.**
